List Based Pricing Model

The list-size pricing model allows you to email to your list multiple times in a given month. If you need to send each week or every other week, this could be a good option for you. We do limit the number of times you can send to that list to 14x. Also, if your list size grows beyond the List Plan you are in, you will need to upgrade to a higher plan before uploading/adding more email addresses.

*Benchmark Email neither sells nor allows any third-party (purchased, borrowed or rented) lists.
